NUMISMATIC vs BULLION

NUMISMATIC

- NO REPORTING-PRIVATE
- Metals daily markets does not determine value
- Coins are Portable
- Easily Divisible
- Limited quantities minted

Longer to receive funds

BULLION

- Some cases a 1099 Required
- Daily Markets determine current values
- Bars not so easily
- Harder to divide units
- Year to Year usually mints increase mintages

Usually takes 3 Business Days

Numismatic Advantages

- **Private Transactions:**
 - Sales are not required to be reported to any government agency.
- **Transferable:**
 - Gift them to your kids, grandkids or whomever you'd like.
- **Portable:**
 - Ability to move it and take it with you.
- **Additional Values:**
 - Historic, legal tender, numismatic, collectible, and bullion metal value.

Numismatic Disadvantages

- **3-5 years to Appreciate:**
 - We suggest you hold your coins for 3-5 years to give them a chance to appreciate
- **When you want to liquidate DO NOT take them to a coin dealer:**
 - Dealers want to buy inventory for the lowest price possible to be able to resale for profit
 - When you are ready to liquidate your portfolio, the best way is through an auction
 - You have the dealer there, the investor there, the collectors there*
 - You'll realize your greatest profits at an auction*

*If you are looking to liquidate, for whatever reason, please contact us.
We can help walk you through the process and advise on how to proceed*

Why do Clients collect NUMISMATICS

- PRIVATE TRANSACTION – NO REPORTING
- Diversification
- Legacy
- Opportunity
- Limited Mintages
- Doomsday Attitude
- UNIVERSAL CURRENCY

What determines the value of Numismatics?

- Condition of Coin - Grading 1 to 70
- Rarity - Type, Mintage and Population
- Historical Value -
- Collectability Factor – Outside Interest

Two of the most common questions asked
when getting started in Numismatics

☑ *HOW MUCH DOES IT COST TO GET
STARTED IN NUMISMATICS?*

☑ *HOW MUCH ARE MY COINS GOING
TO BE WORTH?*

The Economist Magazine 5/20/2017

An index of tangible alternative asset classes compiled by Knight Frank, a consultancy, shows that returns in rare coins over 10 years to the end of 2016 were **195%** Easily beating ---

art (139%)

stamps (133%)

furniture (31%)

S&P 500 index (58%).

Coins are more portable than paintings or furniture, and do boost a higher value-to-volume ratio. Stamps may be lighter, but, come doomsday, cannot be melted down.

3 Keys to the Kingdom of Investing in Collectibles

1. Always buy well known collectibles.
2. **Quality** – Always buy the highest quality you can afford.
 - Coins are graded on a scale of 1 – 70 (lowest – highest grade)
3. **Changeovers** – when something different happens with a coin.
